COMP 321: Programming Challenges

Assignment 4

This assignment includes two problems on kattis.

Please remember that the assignment must be solved individually. What I expect from you is to upload the following in the "Assignment 4" folder:

1) The codes that you used for solving the problems. The files must be named Problem_ IDi.extension, where 'Problem' is the problem ID, IDi is your McGill id and 'extension' is the program extension (.java).

NOTE: Make sure to add comments to your code.

2) A .pdf file for kattis problems. This .pdf must be named Assignment4_IDi.pdf, where IDi is your McGill id number. Inside the pdf file, include a screenshot of the acceptance notification that you received on your Kattis account. Please make sure your name appears in it.

The due date for this assignment is **Sunday October 21st before 11:59 PM**.

For this assignment, we will solve the following problem on kattis:

1. Narrow Art Gallery: https://open.kattis.com/problems/narrowartgallery
2. Exact Change: https://open.kattis.com/problems/exactchange2
